IMSCRIBED TO THE PREMONT CILES

Beneath thy skies, November

Around our blazing camp-fires, We close our ranks again,

For, God be praised! New England
Takes once more her ancient place;
Again the Pilgrim's banner
Leads the vanguard of the race.

If months have well-nigh won the field

What may not four years do

Then sound again the bugles, Call the battle roll anew;

Along the lordly Hudson

A shout of triumph breaks; The Empire State is speaking, From the occan to the lakes.

Then sound again the bugles,

Call the battle-roll anew

In calculating the population from this vot some allow seven and others six persons lo every vote. We think that a still lower ratiobny 51 persons for every vote-would be more nearly correct; but calling it six to one, the popplation of our Wisconsin cities stands thus, as compared with the result of the State Census

The German Vote.

All honor to the German Republicans of Detroit! They marched up in a solid column at the call of Freedom. They split no tickets, but keeping sight of the noble principle at scake, they voted directly for it. In this contest, we acknowledge with high gratification the influential part they have borne. They not only voted with us, but they have worked for us carly and the latest they have worked for us carly and

In this county, too, the German vote for Fic-In this county, too, the German vote for Fromont exceeded our most sanguine expectations. Every effort was made by the Barstov leaders to make them believe that Fremont was a Knew-Nothing, that he was a thiet, and in fact everything that was bad. But it would not do. Like the English, the Scotch, the Welsh, the Norwegians, the Bohemians and the Polanders, the intelligent Germans walked up to the ballot box and deposited their votes for Freedom, Free K unseemed Fremont. All honor to them for their and deposited their votes for recedent recent and seem for their independence.—Racine Advocate.

And so in this city. Though the great mass of the Germans voted, as usual, for the sham bemocracy, we had several hundred true and staunch friends of Justice and Freedom among them, who worked and voted with us through the contest, disregarding the threats, or the taunts of the enemy.

Could the laboring men of our city, Germans and all others, have understood the importance of securing Kansas for Free Laborers like themseives, instead of giving ir up to slavery, we should have had hundreds more of them with They will understand it some of this

The Free State Prisoners In Kam Their condition and Treatment? The prisoners held in confinement at Lecompby the orders of the Federal Administration bay

furnished a statement of the cheamstances at tending their arrest, and their treatment in the place where they are confined. We make the following extracts from this deeply interesting statement, commending it to the attention of all who still think this is a free country, and one in which the lives, persons, and properly of its citizens are protected by the laws The statement gives the particulars of the

murch of Col. Harvey and his men from Lowcence to dislodge Robertson, who had, in write of Gov. Geory's proclamation ordering him to disband his party, plunddred and binned the village of Grasshopper Falls. Col. Harvey drove these maranders from their position, and the narrative continues

On our reture, we enumped tive miles from the scene of action, where we were all taken prisoners that night, by a detachment of U.S. dragoons, under command of Capt, Wood. Our nobered one hundred and one. deprived of our arms, a strong guard was placed upon us

About this time, the guide of the diaagons, a pro slavery man named Grayson, fear-ing that Capt. Wood might very possibly arrest other party also—as intimations were made to that effect—broke through the guard, for the purpose doubtless of warning them of such a result. He was hailed by the sentinel, but did arrest that the state of the purpose of the sentinel, but did at the same time crying out "Halt G-d d-n you." The sentinel fired at nont effect. Grayson returned the fire. his shot taking effect in the sentinel's shoulder. Two other sentinels then advanced and fixed, e ball going through Grayson's heart, killing in instantly. This is the only foundation for the story of a "great fight" between the abeli-tionists and the government troops, so much circulated by certain parties.

The next day we were marched to Lecompton, where we were for the first week under guard of the Federal troops. We were then marched to the prison-house, where we now are guarded by the territorial militin, nine-tenths of whom are non-residents and intend learing the territory as more as the time of their three as soon as the time of their three territory as soon as the time of their three months' enlistment under Geary shall have expired. A number of other prisoners have been brought in since, charged with various offeness. A number have escaped from this den of horror, a few have been discharged, and one was released this morning by the Great Deliverer.—Our number is now ninety-eight, eighty-seven of whom are held on the Hickory Point charge.—The remaining eleven are suspected of having whom are near on the inckery rount energy — The remaining eleven are suspected of having been engaged in feeding their starving families with bread forcibly taken from those who were said that no action should be taken concerning political offences committed previous to the issue of his proclamation, yet more than concerning ponters uncolse commented previous to the issue of his proclamation, yet more than once has he used that portion of the Federalf army under its command, to make seizure o

We take the above from a letter in one of our exchanges, written since the election. It carries with it a moral, which addresses itself to the laboring man everywhere. Hopeful men, however, will take courage from the fact that so many of those who work for daily wages have seen their true interests, and will continue to work, so as to confirm these in their attachment to the Republican cause, their only protection, and to win more to the same way of thinking,

SHARP PRACTICE-The Lond. C.W. Free Press SHARP PARCTICE.—The Lond, C.W. Free Press gives currency to a joke which is said to be going the rounds of the Railway circles to the following effect:—A Michigan gouldeman owned several shares in American Railways, which he desired to sell in London, England, but was mable to find a purchaser. He finally offered thom/to the English Board of Directors of the Great Western Railway Co., who agreed to take £80,000 of the stock, if the other party would accept in exchange the steamers Canada would accept in exchange the steamers Canada and America, which had already proved a dead loss of £20,000 to the Company. Michigan agreed to the trade, on condition that the steamboats should be delivered in Lake Eric. This was consented to, and a written contract made and signed. Now it happens that the steamboats thus transferred are too long to pass through the Welland Canal locks, and the question arises, how is the contract to be fulfilled? It is ease to conjecture that the Englishmen have been taken-
